Everything you need for Nursing Success

LIPPINCOTT Q&A REVIEW FOR NCLEX-RN 13TH EDITION

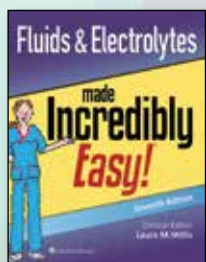

Designed to help pre-licensure nursing students prepare to take the licensing examination. Students and faculty also use the book as a study guide and practice tests for preparing for faculty-made examinations. Because the questions found in the book are also available in PassPoint, the products used together act as an ongoing assessment tool to monitor progress throughout the nursing curriculum.

The textbook includes six comprehensive examinations to provide students a realistic example of the NCLEX-RN test, in which test items are randomized by subject area and difficulty. A new inclusion is a seventh comprehensive test focused exclusively on pharmacology items, to help students review and succeed on questions from this traditionally challenging content area.

Canadian Family Practice Guidelines

Paperback | ISBN: 9780826194961 | 880 pages

This "bible" of family practice now provides current Canadian practice protocols for professional standards of care across the lifespan. Guidelines are delivered in user-friendly, step-by-step instructional style for physical exams and diagnostic testing results in SI units; health maintenance recommendations approved by Health Canada; care guidelines including Canadian drug names and dietary information; information on culturally responsive care; and patient resources specific to Canada.

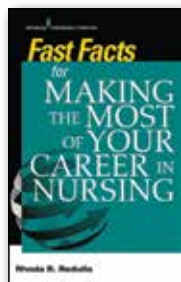

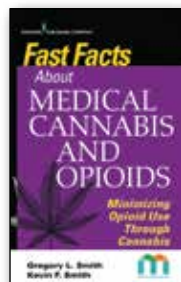

An Introduction to Indigenous Health and Healthcare in Canada: Bridging Health and Healing, 2nd Edition

Paperback | ISBN: 9780826164124 | 270 pages

This textbook for Canadian nursing and allied health students explores the major health issues of Indigenous populations and how to improve their overall health. The second edition addresses a key development since the first edition was published: an increasing consensus among Indigenous peoples that their health is tied to environmental determinants, both physical and philosophical.
