ASSESSMENT & DIAGNOSIS

Canadian Family Practice Guidelines

Jill C. Cash, MSN, APN, FNP-BC,

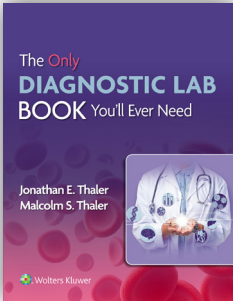

Cheryl A. Glass, MSN, APRN, WHNP-BC, Debbie Fraser, MN, RNC-NIC

Written specifically for the needs of family and adult nursing students, medical students, and primary care practitioners in Canada, this gold standard reference of family practice in America now provides current Canadian practice protocols for professional standards of care across the life span. Guidelines are delivered in a user-friendly, step-by-step instructional style for physical exams and diagnostic testing results in SI units; health maintenance recommendations approved by Health Canada; care guidelines including Canadian drug names and dietary information; information on culturally responsive care; and patient resources specific to Canada.

Stressed about the NCLEX®?

Davis's Q&A Review for NCLEX-RN,® 4th Edition

Kathleen A. Ohman EdD, MS, RN

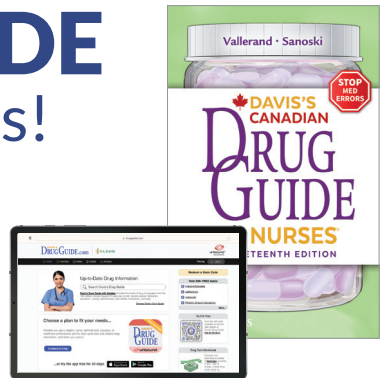

Tons of SATA questions to prepare you for the NCLEX. *"...WAY more questions than any other NCLEX review book I saw. There are tons of SATA questions, which is what I'm most nervous for so that was really helpful. On top of that, the rationales are really comprehensive.*

#1 DRUG GUIDE for nursing students!

Davis's Drug Guide for Nurses, 19th Edition

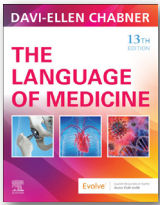

April Hazard Vallerand PhD, RN, FAAN
Cynthia A. Sanoski BS, PharmD, BCPS, FCCP

"As a student nurse, I spend more time with this book than I do with my family. Easy to read, good layout, informative, to the point. It was required by my program and I have found it to be a wonderful resource."

INDIGENOUS HEALTH

An Introduction to Indigenous Health and Healthcare in Canada: Bridging Health and Healing, 2e

Vasiliki Douglas, BSN, BA, MA, PhD (College of New Caledonia, Prince George, BC)

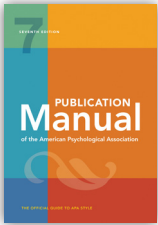

This textbook for Canadian nursing and allied health students explores the major health issues of Indigenous populations and how to improve their overall health. The second edition addresses a key development since the first edition was published: an increasing consensus among Indigenous peoples that their health is tied to environmental determinants, both physical and philosophical. This text describes what is distinctive about Indigenous approaches to health and healing and why it should be studied as a discrete field. It provides a framework for professionals to approach Indigenous clients in a way that both respects the client's worldview while retaining a professional epistemology.
