MEDICAL RESIDENTS

The Art of Breaking Bad News Well

2020 | 9780367356682 | Paperback

2020 | 9780367364748 | Hardcover

Over the course of their career, a doctor will hold conversations with around 200,000 patients and their relatives that invariably involve delivering good or bad news. Either way, the way the news is delivered is vital: recent studies show that it has a significant impact on patients' quality of life and the way they experience treatment. Jalid Sehoul, one of the world's leading cancer specialists, mixes his wide-ranging professional experience with personal stories in this book. *The Art of Breaking Bad News Well* can be helpful for anyone who has to deliver bad news.

Memorizing Medicine, 2nd Edition

2020 | 9781138332690 | Paperback

2020 | 9781138332713 | Hardcover

This book takes a unique approach to "learning medicine" in a manner that places primary emphasis on recall. Drawing upon well-established psychological principles, it uses a broad range of strategies to maximize the ability of the reader to recollect large swathes of information at a later date. The result is an original and refreshing book in which no two pages are quite alike, and where facts are presented in a hierarchical fashion so that essential features of each condition or symptom can be grasped immediately, while finer points are given in more detailed reading.

Symptom Sorter, 6th Edition

2020 | 9780367468095 | Paperback

2020 | 9780367468101 | Hardcover

Symptom Sorter has excelled in redressing the balance between symptoms and diagnoses to become the essential handbook to accompany the consultation in primary care. Presenting a multitude of symptoms commonly encountered in primary care, these are meticulously explored using the red flags, top tips and ready reckoner format for sorting symptoms that have made previous editions so popular and respected. This revised and updated sixth edition includes several new chapters and features expanded coverage of paediatric symptoms.

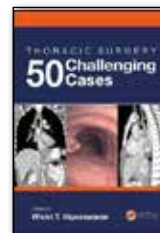

Making Sense of the ECG: A Hands-on Guide, 5th Edition

2020 | 9780367188955 | Paperback

2020 | 9780367189013 | Hardcover

Interpreting an ECG correctly and working out what to do next is a skill that will be invaluable to any doctor when evaluating the condition of a patient. *Making Sense of the ECG* has been written specifically with this in mind, and will help the student and more experienced healthcare practitioner to identify and answer crucial questions. This popular, easy-to-read and easy-to-remember guide to the ECG as a tool for diagnosis and management has been fully updated to reflect the latest guidelines.

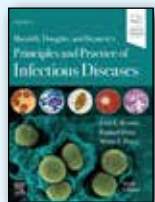

Thoracic Surgery: 50 Challenging Cases

2020 | 9781138035652 | Paperback

2020 | 9780367408329 | Hardcover

This is a masterclass in thoracic surgery. The selection of Cases includes patients with diagnostic challenges, unconventional and innovative solutions, unexpected findings, and new techniques to treat old problems. The discussions after each case provide a useful starting point for further inquiry. Ample illustrated, this book reflects the wisdom and experience of world leaders in thoracic surgery and teaches junior surgeons how to approach the key procedures, and how to manage in unexpected and difficult situations.

**Cancer: The Enemy from Within:
A Comprehensive Textbook of Cancer's Causes, Complexities and Consequences**

Carolyn Compton, MD, PhD, FCAP

May 2020 | 9783030406509

A soon to be gold-standard text, this is the first comprehensive book for undergraduates and the interested general public outlining cancer as a complex, multifaceted disease. The wealth of clinical information is further supplemented with socioeconomic discussions on the financial, social, ethical, technological, regulatory, political, and logistical challenges that limit progress in cancer research.

**Essentials of Endocrinology and Metabolism:
A Practical Guide for Medical Students**

Fredric E. Wondisford, MD

June 2020 | 9783030395711

This comprehensive and practical guide draws together a number of related disciplines to create a straightforward and accessible approach to the study of endocrine and metabolic diseases. It utilizes a consistent chapter format covering core concepts, anatomy, embryology, histology, testing, diagnosis and pharmacology, including cases and review question and answer items for each topic. Full-color figures and diagrams enhance and extend the content.

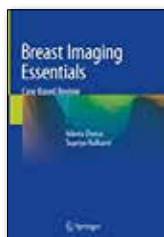

MGH Cardiology Board Review, Second Edition

Dr. Hanna K. Gaggini, MD MPH, Dr. James L. Januzzi, Jr., MD

August 2020 | 9783030457914

This comprehensively revised new edition provides a concise review of the essentials of general cardiology and clinically relevant topics in a dynamic and time-efficient manner, augmenting existing learning. It uses board-style questions and answers at the end of each topic, enabling readers to test their learning and commit key concepts to long-term memory. This book has all the strengths to ensure your success on the boards exam.

Breast Imaging Essentials: Case Based Review

Niketa Chotai, MBBS, MD, DNB, FRCR, FUOT, Supriya Kulkarni, MBBS, DMRD, DNB, DABR

April 2020 | 9789811514111

Aligned with preparations required for the FRCPC and the American Board of Radiology, the main focus is on mammogram and breast ultrasound along with basics of breast MRI and breast interventions. With the increasing popularity of these qualifying exams among radiology residents and dearth of relevant resources on the topic, this book will serve as a valuable resource for the candidates.

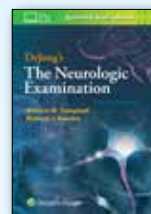

Prepare for the Pediatric Emergency Medicine Board Examination

Textbook of Medical Psychiatry

Edited by Paul Summergrad, M.D., David A. Silbersweig, M.D., Philip R. Muskin, M.D., M.A., and John Querques, M.D.

The book focuses on medical disorders that can directly cause or affect the clinical presentation and course of psychiatric disorders. The first section presents a review of approaches to diagnosis. The second section provides a tour of medical disorders that can cause psychiatric symptoms or disorders. The third section offers a review of psychiatric disorders that can be caused or exacerbated by medical disorders. The final section contains chapters on conditions that fall at the boundary between medicine and psychiatry.

Introductory Textbook of Psychiatry, Seventh Edition

Donald W. Black, M.D., and Nancy C. Andreasen, M.D., Ph.D.

Now in its seventh edition, this remains the seminal gateway to this fascinating field. This volume summarizes the DSM5® diagnostic system, various psychiatric disorders and treatments, interviewing and assessment, psychiatric emergencies, legal issues, and more. Other features, such as clinical points, self-assessment questions, and an exhaustive glossary of terms, add to the educational value and enhance learning.

The American Psychiatric Association Publishing Textbook of Schizophrenia, Second Edition

Edited by Jeffrey A. Lieberman, M.D., T. Scott Stroup, M.D., M.P.H., Diana O. Perkins, M.D., M.P.H., and Lisa B. Dixon, M.D., M.P.H.

This book is an invaluable single source for the latest scholarship and clinical knowledge about schizophrenia. The book is divided into three parts, addressing the presentation of schizophrenia, the etiology and pathophysiology of the disorder, and treatment and rehabilitative therapies. Chapters within these sections cover the fundamental—epidemiology, psychopathology, and pharmacotherapies—and the fresh—cultural variations in the presentation of schizophrenia, epigenetic causes, and the promising field of neuromodulation.

The American Psychiatric Association Publishing Textbook of Suicide Risk Assessment and Management, Third Edition

Edited by Liza H. Gold, M.D., and Richard L. Frierson, M.D.

The third edition represents the new editors' cutting-edge vision while preserving the down-to-earth, accessible, and trustworthy style that has made the book a staple. The book offers up-to-date perspectives on assessment and management of suicide risk in a reorganized and easy-to-use volume. In addition to core topics, such as understanding suicide risk in relation to major mental disorders such as depression, anxiety, and substance use, this revised edition includes chapters on physician-assisted dying, suicide and social media, suicide on college campuses, and other new and noteworthy content.
