Harper's Textbook of Pediatric Dermatology, 2 Volume Set, 4e

Peter H. Hoeger

Children's skin is different. Maturation affects the epidermal barrier, the cutaneous microbiome, adnexal structures, vasculature, and transcutaneous absorption of drugs. The immature skin is more susceptible to pathogens and environmental disruption. Many genetic disorders are either present at birth or manifest early in childhood.

RESEARCH DURING MEDICAL RESIDENCY: A HOW TO GUIDE FOR RESIDENTS AND FACULTY MENTORS

Lynne M. Bianchi, PhD (University of Pittsburgh Medical Center, Pittsburgh, PA)

This book is a guide for medical residents and faculty in the fundamentals of clinical research, publication practices, and conference skills. It offers advice on how to incorporate scholarly activities into training routines, so the process becomes more manageable and less burdensome. Suggestions for pursuing other scholarly activities, outside of clinical research, are also offered.

Participation in research and other scholarly activities is a requirement for graduation from medical residency programs in the United States and many other countries. Faculty physicians who train residents are also required to produce annual scholarly work. Adding scholarship onto an already long list of requirements often feels a bit daunting to medical residents and the faculty who teach them.

General Surgery Residency Survival Guide

Asanthi Ratnasekera, DO, FACS

There are over 250 surgical residencies in the United States. Most residents experience some degree of shock once they start on the very first day, and the demands of residency are high. The current overall dropout rate is 16%, and there is evidence for higher burnout rates, suicide rates, addiction rates and divorce rates among all surgeons compared to other careers.

General Surgery Residency Survival Guide
Asanthi Ratnasekera, DO, FACS
There are over 250 surgical residencies in the United States. Most residents experience some degree of shock once they start on the very first day, and the demands of residency are high. The current overall dropout rate is 16%, and there is evidence for higher burnout rates, suicide rates, addiction rates and divorce rates among all surgeons compared to other careers.
